

17. DEUTSCHER ORCHESTERTAG

3. UND 4. NOVEMBER 2019

Umweltforum Berlin // Auferstehungskirche

COLOGNE, SEPTEMBER 2019

„DREAM ON! – THE ORCHESTRA OF THE FUTURE“

DEAR COLLEAGUES AND FRIENDS OF THE GERMAN ORCHESTRA DAY!

How *do* we want to work? How *will* we work?

The topic *New Work* is in our time an all-determining so-called megatrend. Even our creative bubble, the theater and orchestra world, is not immune to these all-encompassing developments. At the upcoming DOT, we would like to give some food for thought to the cultural work of the future, to provide impulses of their kind, their quality, and to discuss possibilities and concerns together, while we take a closer look at the methods of agile management - all this with experts from other sectors and thanks to our long-standing partner SINFONIMA[®] AKADEMIE , we are able to spend a whole (Sun) day on the topic.

Last year, many musicians accepted the invitation to a joint dialogue on Monday. The feedback - also from the management - has encouraged us to not simply repeat this forum, but to further intensify the exchange possibilities: with the conductor Iván Fischer, the orchestra members of the Junge Deutsche Philharmonie and us - the managers and musicians - developing visions for an orchestra of the future. Active participation is a must!

After many years of stable conference fees, a price adjustment will be required this year, but very modest - thanks to our numerous and strong partners and exhibitors!

We cordially invite you to attend the Umweltforum Berlin on 3 and 4 November 2019.

We look forward to seeing you!

Kind regards!
